Description of the plant: Include as much information as possible. Reference to the RHS Color Chart is desirable. The registrar has one which may be loaned out for this purpose. Include in the description information which can be used to distinguish the plant from related or similar cultivars. Attach extra sheets if necessary.

Cultural information: (notes on culture, propagation, soils, location, time of bloom, size of original tree, etc.) Attach additional sheets if necessary

Your Name: _____

Although not required for registration, Magnolia Society members are interested in such things as how this cultivar came about, how the name was chosen, what kind of conditions it has been growing in, if it's a hybrid what were the breeding goals when it was created, etc. If you would like to share this or any other information you think members might be interested in, please include it with this form.

IF

YOU HAVE A PHOTO YOU'D LIKE TO SHARE, PLEASE INCLUDE IT AS WELL .

Thank you!
