

QUESTION

WHEN MUST A QUARTERLY RETURN TO A HALFY?

1. When our Editor can barely get out two numbers a year, let alone four.
2. When fine manuscripts are contributed by members, but not in four issue quantities. We need continuing help on this.
3. When our dues will support two issues at current level, but would require raising to at least eight dollars annually to support four.

The idea of a quarterly Newsletter was mine alone, and was undertaken in hopeful optimism against the advice of wiser heads. I hope the day is coming when we can go back to it, but that day is not yet. For the next year or two, we will have a "Spring-Summer", and a "Fall-Winter" issue annually, and will try to precede, rather than follow these seasons.
