### Notes from the Seed Counter

This year was the best ever for the Seed Counter, with \$2100.00 being raised. About 115 orders were partially or completely filled, and 1800 packs of seed were distributed. Many thanks are extended to the following 1987 contributors: Bob Barnard, Phelan Bright, Robert Dickerman, Ken Durio, Eugene Eisenbeiss, Karl Flinck, Frank Galyon, Rose Del Grosso, Harry Heineman, Harold Hopkins, August Kehr, Dennis Ledvina, Tetsuo Magaki, Mary Nell McDaniel, Ferris Miller, Richard Pearson, Brian Savage, C. M. Schoenfeld, Richard Schock, Philip Seitner, John Silver, Charles Tubessing, Piet van Veen, and John Weagle.

Seed contributions by new and foreign members are especially encouraged. For foreign members, please write me for the necessary import sticker. A tally of the number of packs requested for each seed variety is also available. This can assist you in showing how large a demand there was this year for each variety.

Ray Tessmer, Chairman
