

Research Grants Available

The Research Committee of the Magnolia Society announces that grants for research on Magnolias are available. The Grant Program exists to encourage and support research related to *Magnolias* and the Magnoliaceae. Authors of successful proposals may be awarded as much as \$2,000 (US funds). Funds may be expended over a period of one to three years, at the discretion of the recipient, except they cannot be used for institutional overhead. Grants are provided to deserving recipients with the understanding that research results will be published in *Magnolia*, The Journal of the Magnolia Society, a non-refereed publication. If you are unfamiliar with research published in the Journal, you may review back issues, which are available in many horticulture libraries. Or, you can obtain a sample copy of the Journal from Roberta Hagen, 6616 81st St, Cabin John, MD 20818.

Proposal Guidelines

All proposals must be received by November for consideration in the following year. Proposals will be evaluated by the Magnolia Society research committee, and awards will be based on the perceived value of the research to the Society's members and the probability of successful accomplishment. The format for the proposals and suggested areas of research is available on the world wide web at www.magnoliasociety.org. If you do not have Internet access, you can contact Dick Figlar at the address given below and request that an application form be mailed to you.

We offer over 350 varieties of grafted Magnolias.

Among these are some of the latest hybrid Magnolias and selected clones of Magnolia species.

Our full list of Magnolias, Camellias and Wisterias is available on request.

Plants are dispatched as one- or two-year grafts and in accordance with import regulations.
